RESEARCH AND PRESENTATIONS

Induction of Specific Binding Sites for Prolactin in Livers of SE/J Mice by Injected Prolactin, IRCS Medical Science Journal, 5,32 (1977)
(Research with the Anatomy Department at Michigan State University).

Successful Transplantation of Human Benign Breast Tumors into the Athymic Nude Mouse and Demonstration of Enhanced DNA Syntheses by Human Placental Lactogen, Cancer Research, 38 2342-2349, August 1978.
(Research with the Anatomy Department at Michigan State University)

Wilm's Tumor: Treatment in the Community an Analysis of the Grand Rapids Experience 1968-1977, Presented at the GRAMEC Research Day
(Research I did with Dr. Edward Moorehead as an undergraduate).

Accretion of Biopsy Specimens of Vaginal Adenosis from Patients Exposed in Utero by Diethylstilbestol, when transplanted to Athymic Nude Mice. Jnatl Cancr Inst, Vol. 62, No.3, March 1979
(Research with the Anatomy Department at Michigan State University).

Mammography Underutilized and Misunderstood; A Review of the Literature.
Presented to the Western Michigan Radiological Society Meeting, April 1983.

Utilization of Screening Mammography: Comparison of Different Physician Specialties.
Radiology, 164:121-122. July 1987

Localization of Small Lesions Within a Specimen. Breast Dis. 1989; 2:15-18

Physical Examination of the Augmented Breast: Description of a Displacement Technique. Obstetrics & Gynecology, Vol, 85, No. 2, February 1995

FAMILY AND HOBBIES

Married. Current blended family of 8 sons, 3 daughter in laws, and 4 grandchildren.
Two grandsons live in Japan so I am learning Japanese.

I live on a small farm with 4 horses, 5 large dogs, one cat, and 4 chickens.
I love riding a tractor and working the fields. My husband and I are equestrians, and enjoy trail riding, and fox hunting. The outdoors is good exercise and healing for the stresses of a hospital work, and minimal exposure to the sun in radiology.
