

BODY IMAGING, MSK RADIOLOGISTS, Full Time in Mid & Southeast Michigan

Progressive, radiologist-owned, outpatient imaging center seeking a [Radiologists with Fellowship training in Body Imaging or MSK.](#)

At RMI we perform approximately 160,000 RVUs per year covering the gamut of diagnostic and interventional radiology utilizing state of art equipment. We perform a wide range of imaging procedures including drainage, biopsies, hysterosalpingograms, arthrography, and fluoroscopy GI studies. As the first stop in the diagnostic workup, RMI is robust and performs many procedures on patients with significant degrees of pathology. RMI is also involved in oncology work within the communities we provide services for. We see many patients at the time of cancer diagnosis and perform much of their follow up imaging. RMI is a community leader in providing these services and the development of new services is based around radiologists' strengths and desires. As leaders in the craft of imaging RMI deploys state of the art AI algorithms to improve detection and performance as well as efficiencies. We are like no other practice that you will find in Michigan being the largest and employing over 220 people in 9 centers.

We also work hard to create a unique environment, not just for our patients, but for our associates. Team members are guided by our core values of integrity and respect, with a constant focus on our customers, both referring clinicians and patients. Our approach to patient care includes personalized service that is delivered in facilities that are more home-like than clinical.

We are looking for a fellowship-trained BODY IMAGING RADIOLOGISTS and MSK RADIOLOGISTS who believe in our core values of putting patients first, allowing you to become a key player in our growth.

We understand and value the relationships we have with referring clinicians. As such you will be involved in generating relationships and providing education and consultation in collaboration with our sales and marketing team. RMI radiologists are supported by the latest tools and technology to enhance efficiency and provide flexibility, including the ability to read remotely.

The ideal candidate will be fellowship-trained, board certified or board eligible. Must be licensed or have the ability to be licensed in the state of Michigan. If this sounds like a good fit and you're ready to help us grow our practice, we invite you to submit your credentials for consideration.

Salary & Benefits:

Competitive Compensation, Vacation; CME allowances; professional liability; health, dental & vision insurance; and 401K.
