We are looking for entrepreneurial minded physicians who value involvement in decision making and developing our business strategy. Participation in section, committee and board meetings is not required but welcomed from day one. While we are an independent private practice, some of our physicians practice with an academic focus. In affiliation with Western Michigan University School of Medicine, our radiologists have opportunities to teach and mentor residents and pursue research if desired. Due to the size and breadth of the healthcare systems we support, diagnostic volume and variety of clinical exposure is unrivaled.
