

Who we are: Advanced Radiology Services is one of the largest physician-owned radiology practices in the country. Our growing practice includes 214 radiologists, 38 advanced practice providers, and 180 employees providing administrative support in our wholly owned subsidiary STARS. We value diversity on our team and promote a culture of inclusion.

What we do: We provide services to more than 60 different sites across the state of Michigan. ARS is the exclusive radiology provider to Lakeland Health in southwest Michigan. Lakeland was recently named one of the nation's 15 Top U.S. Health Systems by Truven Health Analytics. This study evaluates health care systems on five areas: inpatient outcomes, process of care, extended outcomes, efficiency, and patient experience.

What we are looking for: We have a position currently available for an **Interventional Radiologist** in St. Joseph. This is a partnership track position and will join two other IR physicians.

Responsibilities:

- This position would include approximately 50% interventional radiology and 50% diagnostic radiology responsibilities. Diagnostic work can be based on candidate interest/secondary specialty.
- The IR practice covers a wide spectrum of inpatient and outpatient interventional procedures, including vertebral augmentation, trauma embolization, GIB embolization, venous intervention, central venous access including implanted ports, biopsies and drainages, pain management procedures, and uterine fibroid embolization
- Opportunity to increase interventional oncology service

Requirements:

- Certified by the ABR or AOBR
- Completion of interventional radiology fellowship or equivalent experience

Why is our IR practice unique? ARS is a 100% physician owned and managed practice and fully committed to remaining independent. We are establishing a state wide IR service leveraging our DR (distributed radiology) platform. This allows us to interact with colleagues and provide expertise in all locations. We are working to integrate Lakeland patients with our IR clinic in Grand Rapids which has 7 full time registered nurses and 3 clinical/administrative support staff to assist patients 24/7. Additionally we have the support of an Advanced Practice Provider rounding and performing minor procedures at our site. We have quarterly peer review meetings to support physicians and promote continued learning. We now have an interventional radiology residency program in Grand Rapids which will allow our physicians opportunity for teaching and research if desired.

Compensation/Benefits: Our physicians pay nothing for medical/dental/vision coverage. We also contribute the maximum amount allowed to the 401K plan. We offer a generous vacation package as well as abundant opportunities to pick up additional shifts and increase compensation. We are continually striving to improve the work/life balance for our physicians.

Why do you want to live here? St. Joseph is located on the Lake Michigan shoreline and considered one of Michigan's most popular beach towns. This growing resort community welcomes visitors with brick roads, unique restaurants and a wide array of shopping. The area has quality public school systems, gorgeous sand dunes, parks, and other natural amenities. It is surrounded by lush countryside that produces some of the nation's finest orchards and vineyards. St. Joseph is the Berrien County seat, home to Whirlpool Corporation and located only 90 miles from downtown Chicago.
