## JOIN US TODAY!

The Michigan Radiological Society (MRS) is a proactive association of radiologists, radiation oncologists, medical physicists, residents, fellows, and medical students. Over the years, the MRS has achieved numerous successes, including working with the Michigan State Medical Society and the State Legislature to ensure that diagnostic imaging studies are carried out by medically trained specialists specifically trained in radiology. Its efforts have been recognized nationally by the American College of Radiology, receiving accolades for overall excellence, meeting and education, and radiological safety since 2004.

## WHAT ARE THE BENEFITS OF MRS MEMBERSHIP?

The Michigan Radiological Society (MRS) is committed to preserving the autonomy of radiologists and preventing the corporatization of medical practices in radiology. The MRS is exploring legal and political options to ensure that radiology remains in the hands of radiologists, rather than corporations or Wall Street. Many Michigan-based radiologists are concerned about non-physician owned teleradiology companies and imaging centers gaining a foothold in the state. To help maintain their independence, the MRS is lending support to Michigan radiologists.

## HOW MRS IS MAKING A DIFFERENCE

### **Legislative Arm Fighting for Radiologists:**

The MRS hires a full-time lobbyist to advocate for radiologists and counter the corporatization of medicine.

### **Voice for Radiology at the State Level:**

The MRS is the primary representative for radiology at the state level, ensuring the interests of members are heard before the legislature in Lansing.

### **Access to a Comprehensive Job Bank:**

The MRS provides a comprehensive job bank with up-to-date job postings from all over the state.

### **ACR Guidelines and Technical Standards:**

Members of the MRS have a say in the development of the ACR Guidelines and Technical Standards, which are important to hospitals, courts, third-party payers and the practice of radiology.

### **A Pathway to ACR-Fellowship:**

The MRS offers opportunities for leadership and involvement, providing members with the chance to achieve recognition as an ACR Fellow.

**American College  
of Radiology™**

# YOUR JOURNEY TO RADIOLOGIC EXCELLENCE STARTS HERE

## REASONS TO BE A MEMBER OF THE AMERICAN COLLEGE OF RADIOLOGY

1. We are radiology's voice on Capitol Hill. Our government relations team is your eyes, ears and voice in Washington, DC.
2. We represent the gold standard in advancing and promoting high quality, safe, and effective diagnostic imaging, interventional radiology, and radiation oncology.
3. Unparalleled continuing education offerings. You'll receive free access to a minimum of 73 hours of online CME and SA-CME activities (\$2,000 value) every year.
4. ACR is advancing the profession. The ACR supports valuable programs such as the AIRP, RLI®, RTOG, Imaging 3.0 and more.
5. Preparing you for the future. The ACR National Radiology Data Registry is now an approved Qualified Clinical Data Registry for meeting quality reporting requirements under MACRA.
