

Michigan Radiological Society
 Resident & Fellow Section
 Application for Executive Board Position

Michigan Radiological Society Resident and Fellows Conference: Application and Selection Process

- Prior to the yearly conference, applicants must complete an anonymized application.
- The resident affairs committee will rank each application using a numerical score (1-10).
- The average score will be used to determine the candidate's rank.
- The highest-ranking applicant from each program will get their "first-choice" position, and so on.
- If a position is already filled, the applicant will choose their next preferred option.
- A second position may not be filled by a member of the same residency program until all programs are represented unless no other programs have applied.
- In the event of a tie, the chair of the resident affairs committee will make the final decision.
- All winners will be announced at the yearly conference.

Please rank ALL positions you would be interested in filling.

President-Elect	X
Secretary	X
Treasurer	X
Webmaster	X

Fundraising Chair	X
Resident Liaison	X
Fellow Liaison	

Why are you interested in joining the Michigan Radiological Society Executive Board?

I wish to join the MRS executive board to build meaningful relationships with peers and advance my leadership abilities. Joining the executive board will give me the opportunity to contribute not only to radiology, but also the medical community, and society as a whole.

What qualifications do you have for the positions you are applying?

I have many qualities that I believe make me an excellent candidate for the executive board. I am a continued advocate for residents and fellows at our institution and believe I could bring this to the MRS executive board. I served as a SEMCME speaker for transitional year residents in the area. I am hardworking and up for the challenge.

What ideas do you have for MRS RFS this year?

I hope to bring a continued engagement of the radiology residents and fellows throughout the state of Michigan. Radiology is evolving rapidly with increased study volumes and complexities. This in combination with the job market in its current state give me several ideas to pursue during the 2024-2025 year. I hope to expand resources for navigating job opportunities with consultation and materials to ensure residents get the most out of the market. We are at our collective strongest when we all work towards each others best interest and I hope to be a voice in encouraging this collective goal of bettering ourselves as radiologists.
