

Michigan Radiological Society
 Resident & Fellow Section
 Application for Executive Board Position

Michigan Radiological Society Resident and Fellows Conference: Application and Selection Process

- Prior to the yearly conference, applicants must complete an anonymized application.
- The resident affairs committee will rank each application using a numerical score (1-10).
- The average score will be used to determine the candidate’s rank.
- The highest-ranking applicant from each program will get their "first-choice" position, and so on.
- If a position is already filled, the applicant will choose their next preferred option.
- A second position may not be filled by a member of the same residency program until all programs are represented unless no other programs have applied.
- In the event of a tie, the chair of the resident affairs committee will make the final decision.
- All winners will be announced at the yearly conference.

Please rank ALL positions you would be interested in filling.

Why are you interested in joining the Michigan Radiological Society Executive Board?

My motivation is deeply rooted in a genuine passion for radiology, a commitment to excellence in practice, and a steadfast belief in the power of collaboration and leadership to advance our field.

Radiology has been a central focus of my professional life, offering a unique intersection between cutting-edge technology and patient care. This specialty has not only challenged me intellectually but has also allowed me to make meaningful contributions to patient health outcomes. The opportunity to serve on the Executive Board is a chance to further these contributions on a larger scale, advocating for advancements in radiological practices, education, and research.

My interest in joining the board also stems from a desire to contribute to the professional development of our community. I believe that by sharing knowledge, fostering mentorship, and promoting innovation, we can elevate the practice of radiology across Michigan. The society's commitment to these principles resonates with my own professional ethos, and I am eager to contribute my skills and experience to support its mission.

Furthermore, my interest in joining the Michigan Radiological Society Executive Board is driven by a deep-seated belief in the value of our profession and a commitment to contributing to its growth and success. I am excited about the possibility of working alongside fellow leaders in radiology to foster a vibrant, innovative, and collaborative community that not only advances our field but also enhances the care we provide to our patients.

What qualifications do you have for the positions you are applying?

I am motivated by the opportunity to collaborate with a diverse group of professionals who share a common goal of advancing the field. I am particularly interested in the society's initiatives around improving patient care through technological innovation and evidence-based practices. By serving on the Executive Board, I hope to bring my perspective to these discussions, leveraging my background in Artificial Intelligence and Quality Improvement to help shape the future of radiology in our state.

What ideas do you have for MRS RFS this year?

I am very excited about the potential to contribute to the MRS RFS this year.

One of my primary ideas is to enhance our educational offerings by incorporating a series of webinars and interactive workshops that focus on emerging radiological techniques and technologies. This would provide valuable hands-on experience and learning opportunities for our members.

Additionally, I propose establishing a mentorship program that pairs experienced radiologists with residents and fellows. This initiative would foster professional development, research collaboration, and create networking opportunities.

Another concept I am passionate about is organizing a statewide radiology case competition. Such an event would encourage academic excellence and provide an engaging way for members to showcase their diagnostic skills.

Lastly, I believe in the importance of advocacy. I aim to work on programs that inform policymakers about the crucial role radiology plays in healthcare and the need for supportive legislation.

I look forward to the opportunity to discuss these ideas in more detail and to contribute to the MRS RFS's mission of advancing the field of radiology.
