Dear MRS Fellowship Committee Members:

I am attaching my CV for consideration of recommendation to apply for Fellowship of the American College of Radiology this application cycle.

I graduated fellowship in 2012 and have been a full member of ACR and an active member of the Michigan Radiological Society since.

Most of my career has been in private practice with Southfield Radiology Associates where I dedicated my expertise to breast and body imaging and to resident education, including serving as the Associate Program Director for the Radiology Residency Program and Section Chief of Breast Imaging. The last two years I have been the Director of Breast Imaging at Karmanos Cancer Institute. I have been heavily involved in both medical staff and community education giving various lectures, hosting community events, and serving on hospital and system wide network committees.

I seek your guidance and expertise in my request for FACR application. I am happy to provide more detail and discuss further at any time.

Thank you for your consideration.

Sincerely,

Evita Singh, MD
