Our committee has had another successful year under the leadership of the MRS president Rocky Saenz

Thanks to all the committee members especially all those who participated in a vignette.

The vignettes have continued to be a valuable resource for members.

In fact, there is link on the MRS website for easier access to past vignettes.

Members were encouraged to:

- access ACR resources including in engagement in Imaging Wisely and Imaging Gently programs.
- contribute to the ACR practice parameters and technical standards.
- read and give feedback on the ACR manual on MRI safety.
- use the ACR manual on contrast media as an important resource.

Thanks to all!
